**Subject:** DN 2020-162-T: Prehearing Conference Report

Good Morning,

Attached you will find a courtesy copy of the Prehearing Conference Report, which has been prepared pursuant to Regulation 103-839. Any objections to the report must be filed within ten (10) days. If no objections are filed within that time, the report will be deemed approved by the parties.

**Shipper Witness Affidavits/Certification**

As discussed during the prehearing conference, the letters of support may be submitted as shipper witness affidavits, but because of the pandemic, must also be accompanied by a certification. A number of shipper witness affidavits/certifications have been submitted since the beginning of COVID-19; they are available to view on the Commission's Docket Management System.

Thank you for your assistance in performing the test run. Take care and stay safe!

With warm regards,

**Jerisha Dukes, Esq.**

Lancaster, South Carolina is a developing county that with every passing day is growing in a variety of ways. There is expansion in small, corporate, and chain businesses throughout the county, and with COVID-19 lowering interest rates, in turn making it a great time for house buying, many people are moving here and moving within our county. All of this brings us here: Lancaster has a lot and is growing by the day, but we are lacking a moving company. We do not have a moving company that is located near the city, for the convenience of most of the county. When in need of moving services, the closest option is 40 minutes from the Buford area, and even further from lower parts of the county. This is impractical and causes money that could be used internally in our county to go to moving companies outside of Lancaster. As a growing county in the middle of a pandemic, it is important now more than ever to keep money flowing to businesses within our county, especially the family-owned ones. Modern Day Movers is a family-owned moving company that can add to the variety of our businesses and provide necessary economic assistance. It will be benefitting the needs of Lancaster's people throughout the county and providing a convenience that will make a customer feel good, knowing they are helping Lancaster's economy and overall growth.

Dear State of South Carolina:

Last December our family was moving from a rural area in Lancaster County, South Carolina to our current location in Pageland, South Carolina. While preparing for our move, we needed to find a company that could pack up and move our household from Lancaster to Pageland. In the process, we found that there are not any reputable moving companies in the Lancaster/Chesterfield area that are licensed to move household goods. We ended up having to get family members to help us move.

We will be relocating again in the upcoming months and once again are searching for a company that is licensed to move household goods. In that process, I have spoken with Hunter Matthews of Modern Day Movers. Currently, Modern Day Movers is not licensed as a Household Goods Carrier, but we would like to recommend that they be approved for licensing. Hunter has been in the moving business for many years under the employment of another company and comes with high recommendations. This approval would provide a current need in our area that would eliminate the hefty "travel" expenses that other licensed companies expect to travel to our area for a move.

I would be glad to speak with you personally if you have any questions.

Sincerely,

Shannon H Threatt

Lancaster SC, 29720

To whom it may concern, it has come to my attention that there is a possibility for a moving company to be established in the Lancaster county area. Myself, a resident of this county strongly recommend this company 'Modern Day Movers' to be allowed to transport household goods throughout this area and thereof. In the Lancaster County area, I find it a struggle to obtain a moving company that would be cost efficient, mainly due to the travel cost that it would take to get one of these other companies to travel to and from their home location. Therefore, as a South Carolinian and a resident of Lancaster county, I would rather spend my money in somebody that is local, which in return would potentially cause economic growth in throughout my county.

The closest moving company from this area is from 30 minutes to a hour depending on which area of Lancaster you reside in. Modern Day Movers are located in a position which splits the difference of mileages between any other companies in this state, especially, from Columbia to Charlotte and any surrounding areas. Finally, as I said earlier I would like to reiterate that Modern Day Movers would be a great candidate to be able to transport household goods throughout this area.

Sincerely,

Andrew Broughton
